ident of Council without opposition.

opposition.

Philip R. Bikle was re-elected
treasurer on the sixteenth ballot. The
other nominees were Harry C. Sanders,
D. A. Riele, Calvin Gilbert and Paul
A. Martin. The first four ballots were:

lot was Sanders 4, Bikle 4. The final
ballot was Bikle 5, Sanders 4.

Charles Culp was elected street com-
missioner to succeed Valentine War-
ner, the vote being Charles Culp 7,
John D. Bailey 2.

John Hess and George Gordon were
elected police. The vote stood John
Hess 8, George Gordon 6, Thomas
O'Reilly 2, Irvin Leech 1, John Mc-
Sherry 1. Mr. Hess was unanimously
elected chief.

The election of surveyor and sewer
inspector were deferred. Mr. Trostle
after thanking Council for choosing him
president took the chair.

The Buford and West Middle street
ordinances were finally passed.

The matters of fixing the tax rate
and the appointment of committees
were deferred until an adjourned meet-
ing.

A communication was received from
Mrs. J. W. Richard asking bet-
ter drainage service on springs avenue.
On motion of Mr. Kitzmiller, seconded
by Mr. Tawney, action was deferred
until an adjourned meeting.

The following resolution, presented
by Mr. Butt was unanimously adopted:
"Resolved, that we approve of the
action of the Town Meeting in Gettys-
burg on Monday evening, March 7, in
adopting resolutions asking the Hon.
D. F. Lafane to urge an appropriation
of \$150,000 for a federal building in
Gettysburg; and the Town Council
joins in commending to Congressman
Lafane urgently to support such approp-
riation for a federal building, and
that this action be communicated to
him by the secretary."

Mr. Trostle of the sewer committee
reported on the question of securing a
right of way for sewer for the Kumer-
ant property. He reported the same
as being obtainable.

The question of the salary of the
police for the coming year received
some attention. The salary for each

higher salary and Messrs. Koch, Shear-
er and Kitzmiller voted against the
\$32.50 motion.

journed session Tuesday, March 15.

WOMEN HURT IN UGLY ACCIDENT

**Wife and Daughter of Register and
Recorder Appler Thrown from
Buggy and Rendered Unconscious.
Vehicle Demolished.**

Mrs. Jacob A. Appler, wife of
Register and Recorder Appler, and
daughter, Miss Elsie Appler, were
participants on Tuesday morning in
an ugly driving accident at the home
of Mr. and Mrs. Edward Sponseller in
Mt. Pleasant township about a mile
and a half from Bonneauville. Both
women were thrown from the buggy
in which they were driving and ren-
dered unconscious. They are now re-
covering nicely at their home on East
High street.

Mrs. Appler's sister, Mrs. Sponseller,
has been ill for some time and on
Tuesday morning Mrs. Appler and her
daughter drove to the Sponseller home,
arriving there about ten o'clock.
There was no one about when they
drove up in front of the house and
they determined to drive into the yard
at the barn. Mr. Sponseller's traction
engine was standing nearby and the
horse shied, the buggy striking a post
and overturning, throwing both women
heavily to the road.

Both Mrs. Appler and her daughter
were thrown out on the hard gravel
road and struck head first. They lay
there unconscious for a few minutes
until Mr. Sponseller who happened to
come along the corner of the barn at
the very instant of the accident, could
reach them. He saw that both were
carried into the house and Dr. Lindan-
man summoned from Bonneauville.
Both women soon regained conscious-
ness and their injuries were treated.

Mrs. Appler was badly bruised about
the face, shoulder and hip. Her face
was very badly cut by the stones. Her
daughter is suffering from ugly in-
juries about the head and shoulder
and is considerably broken up from the
shock. That both women were not more
seriously hurt is a great wonder as Mr.
Sponseller, who saw them thrown out,
declares that they were thrown at least
ten feet before striking the ground and
that then they struck the ground faces
first.

The horse became more frightened
when he heard the noise of the over-
turning buggy and ran around the
barn where he became completely
tangled up in the harness and when
found could not move. The buggy,
a new \$135 vehicle, was completely
demolished and the horse was some-
what bruised.

Mr. Appler was notified soon after
the accident and at once went to the
Sponseller home. Dr. Lindaman
thought that by evening the ladies
could be brought home and this was
done. Mrs. Appler and her daughter
are both getting along nicely and their
early and complete recovery is looked
for by their many friends.

GUN LAW UPHOLD

Secretary Joseph Kalbfus, of the
State Game Commission, has received
word that the State Supreme Court
has upheld the constitutionality of
the automatic gun law of 1907, which
prohibited the use of automatic guns
in hunting game. The law was de-
signed to stop use of "pump" guns in
the woods and an appeal was taken
from the decision of the Delaware
county court declaring the law unconsti-
tutional by the commission. The
Superior Court reversed the Delaware
court and the appeal was taken to the
Supreme Court.

"The effect of this decision will be
to prohibit the use of such guns in the
woods and to safeguard human life as
well as to give a chance. It does
not prohibit a man from having such a
gun or from shooting at a crow or
vermin, but nothing protected by law
as game may be shot with it," said
Dr. Kalbfus.

KNOX'S SON FAILS TO GET BLESSING

Young Elopers and Bride Visit Washington.

WEDDING SHOCKED PARENTS

Secretary's Son Hopes They Will Forgive and Says He Is Ready to Go to Work to Support His Wife if Necessary.

Washington, March 9.—Secretary Knox apparently has not forgiven his son, Philander C. Knox, Jr., for eloping with Miss Mary Bolter, the former store girl of Providence, R. I.

The younger Knox and his bride arrived here and took rooms at a hotel. Then the young man sought his father. Apparently the interview did not result in the parental blessing being bestowed, for the young man announced on leaving his father that he was preparing to return to Providence with his wife.

"I'm glad we're married," he said. "It was a big surprise to my father and mother; in fact, a shock to them. But I am hoping they will forgive me for surprising them and that everything will be all right before long."

Knox did not see his mother when he went to the secretary's home. His interview with his father he declined to discuss.

Of his return to Providence, Knox said: "We are going back to Providence for a time so that I can get my things together up there and make plans for the future. I expect to go to work, of course, and will do so to support my wife if necessary."

Before Knox's arrival here mystery surrounded his whereabouts, and it was reported variously that he had stopped over in Baltimore, that he had gone to Philadelphia and that he was at the family home at Valley Forge.

This mystery was caused by the bride and bridegroom leaving the train at Baltimore and proceeding to this city by automobile.

Secretary Knox and his entire family have denied themselves to all callers seeking information concerning the marriage of his son Philander. The secretary did not go to the state department, neither did he attend the wedding.

Neither did Reed Knox, the secretary's son, who acts as his private secretary, make his appearance at his office in the state department. All inquiries at the Knox home failed to elicit any information concerning the romance of young Philander.

Pastor Tells of the Wedding.

Burlington, Vt., March 9.—The marriage of Philander C. Knox, Jr., son of the secretary of state, to Miss Mary Bolter, of Providence, R. I., was confirmed here by the filing of the marriage certificate by Rev. E. G. Guthrie, the clergyman who performed the ceremony. He refused to discuss the ceremony, which he performed on Sunday evening.

SCORES COMMENCEMENTS

Educator Says They Are a Glaring and Expensive Fraud.

Wilkes-Barre, Pa., March 9.—Much talk was caused in educational circles in this section of the state by the accusations made by Professor H. E. Hoffman, superintendent of the Foster township schools, in his forcible recommendation favoring abolishing the present methods of conducting the annual commencement exercises in the high school. He said:

"I am personally opposed to current methods for arranging and rendering commencement programs. The system in vogue is a glaring and expensive farce. We force the boys and girls into commencement exercises in a way that places them in a wrong light before the world. We write the leading essays, which they memorize, and then deliver, parrot-like, as their own productions.

"We force them into the attitude of deceivers. Their first act, as they stand on the threshold of the world's activities about to commence their lifework, is a lie."

The board approved of the recommendations, and instructed the superintendent to provide a graduation program to conform to his ideas.

NATIONALIST SPLIT

Dillon and O'Connor Are Said to Be Against Redmond.

Dublin, March 9.—William O'Brien's paper, the Cork Accent, states that there are violent differences of opinion in the Irish party. John Dillon and T. P. O'Connor are against John

Redmond, the Irish Nationalist leader, and Joseph Devlin on the budget question.

Kills Himself in Hotel.

Colorado Springs, Colo., March 9.—Earl D. Thomas, Jr., thirty years old, the son of Brigadier General E. B. Thomas, commander of the department of Colorado, with headquarters in Denver, fired a bullet into his brain in his room at a local hotel, dying instantly.

Dr. Hyde Released on \$100,000 Bail. Kansas City, Mo., March 9.—Dr. D. C. Hyde, charged with murder and attempted murder in the Swope case, was released from the county jail on \$100,000 bail.

The young things—the lambs and little pigs—will be putting in appearance within a few weeks now, and if suitable quarters, dry and clean, are not already provided for lambing and farrowing they should be before the time arrives. Much young stuff is annually lost through neglect in this particular.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black-heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets."

OIL TRUST SAYS IT IS LAWFUL

Declares Business is Result of Natural Growth.

NO LAWS WERE VIOLATED

Files Answer to Government Suit For Its Dissolution—Assert Company Created and Developed the Industry.

Washington, March 9.—A brief in opposition to the attempt of the government to dissolve it as violating the Sherman anti-trust law was filed in the United States supreme court by the Standard Oil company. This comes as a prelude to the oral argument of the case next Monday. The brief is the work of D. T. Watson, John M. Freeman and Ernest C. Irwin. The brief of the government has not yet been filed.

The keynote of the defense is the so-called preservation of the "rights of individual citizens of the United States."

The issue, according to this brief, is the charge made in the petition, denied in the answer and reasserted that the seven individual defendants, John D. Rockefeller, William R. Rockefeller, John D. Archbold, Oliver H. Payne, Henry M. Flagler, Charles M. Pratt and Henry H. Rogers, combined and conspired and continued to combine and conspire at the time the petition was filed, to restrain interstate trade in oil and to gain a monopoly of it.

The brief asserts that the circuit court of the United States for the eastern district of Missouri, whose adverse decree the defendants seek to overturn, held that solely because these individual joint owners of a group of non-competitive properties engaged for forty years in private trade instead of continuing to hold through trustees controlled by these seven defendants, changed in 1899 as the brief says "the method of holding their properties by conveying them to the Standard Oil Company of New Jersey, and that such change was a violation of the Sherman anti-trust act."

This decree is complained of as being unjust to the men who, according to the brief, "were a lawful group lawfully doing business," and who, after what is described as a mere conveyance and solely by reason thereof became, according to the government's charge, a "group of lawless conspirators."

Declares Business Lawful.

The assertion that the seven individuals are engaged in lawful business is emphasized. "The Standard Oil business as it existed in 1906, and still exists, says the brief, 'was the natural development and outgrowth of the business begun in 1862 and steadily pursued by the Rockefellers and others.'

"By creative skill they secured from refuse oil valuable by-products. They invented the huge reservoirs for storing oil—the combined pipe line system which gathers up and carries the natural products—the tank cars which carry the refined products. They created the export trade in oil, transporting it in ships of their own construction and selling it in Asia, India, China, Japan, Russia and all Europe."

"They devised the trading stations—the oil delivery wagons—and used every means to cheapen the product and the quality."

"From 1862 to 1906 (forty-four years) the work went on. They took the risk of the failure in production, of destruction by fire and tempest; besides all the ordinary risks of trade. They met all emergencies with competent skill and sufficient funds. The unexpected, enormous increase in production greatly increased their business and added to its importance and profit."

"They succeeded, as if one had developed unexpectedly a gold or diamond mine, and abundant revenue legitimately became theirs. Their business thus created was a lawful one, and the owners thereof were and are lawfully entitled to continue the same, and if in 1906, when the petition was filed, they were not restricting interstate trade or by unlawful means seeking a monopoly (which it was not) the court should not have interfered with it."

VALUE MINER'S LIFE AT \$1800

Cherry Mine Deaths Will Be Settled on This Basis.

Chicago, March 9.—With fifty claims of widows and other relatives of the Cherry mine disaster victims settled by payments ranging from \$800 to \$1200 per death, the St. Paul Mining company has entered into negotiations with counsel in something like 100 more cases to settle with the victims' widows at the rate of \$1800 in each case.

This rate of settlement was agreed upon at a conference between attorneys representing the widows and counsel for the mining company. In the mine disaster 264 men were killed, leaving 157 widows.

3000 MORE R. F. D. ROUTES

Over \$1,000,000 Added to Postoffice Appropriation Bill For That Purpose.

Washington, March 9.—More than \$1,000,000 were added by the house to the appropriation, recommended by the committee on postoffices and post roads, for the rural free delivery service for the year ending June 30, 1911. This appropriation, it was stated, will be sufficient to permit the establishment of 3000 new rural free delivery routes, as it would make available for such extensions about \$1,500,000. During the current fiscal year \$600,000 was available for extension of this service.

SOUTHERNER STRIKES AT COLORED VOTE

Would Nullify 14th and 15th Amendments.

Washington, March 9.—Representative Sisson, of Mississippi, brought up in the house the old question of the right to disfranchise the colored voters, when he introduced a resolution declaring null and void the fourteenth and fifteenth amendments to the constitution.

Mr. Sisson's resolution recites that the journals of the senate and house of the Thirty-ninth, Fortieth and the Forty-first congresses show that the two amendments were not adopted in the two houses by a two-thirds vote, and further that three-fourths of the several states did not ratify them, as required by the constitution.

The attorney general is "ordered and directed" to submit the question of their validity to the supreme court and to file at the same time with the court copies of the journals of both houses of congress and of the legislative bodies which acted upon the subject.

Various efforts have been made to have the validity of the adoption of these amendments tested, but each attempt by southern congressmen has met an early fate in committee.

Hazleton, Pa., March 9.—James Bowden, aged fifty years, a miner at Latimer, met a horrible death in a strange manner. Placing a stick of dynamite in the bosom of his shirt, he was preparing to put on the cartridge before firing a shot, a spark from his lamp ignited the dynamite and he was blown to pieces.

Ten Doctors Said He Would Die

"In 1903 we wrote you regarding my husband, who was suffering from heart trouble. He was superannated by the North Georgian Conference. Ten doctors at different times said he would die. You advised Dr. Miles' Heart Remedy and Restorative Nervine; we did as advised, and improvement was apparent from the very first. He recovered and the Conference in 1904 gave him a charge. He never felt better, although he has very heavy work and does a great deal of camp meeting work. I am so glad we took your advice and gave him the medicine, and feel that I ought to let you know of the wonderful good results from its use."
